

#### Product description

**Bollard made of hot-dip galvanised steel with base and decorative cast iron element at the top. Cylindrical body with rings for possible fixing of the chain.**

#### Series description

**The Melia series is a combination of classical and modern style, of cast iron and steel. Its functional and essential elements generate a collection of products that can easily fit into different architectural contexts. The shape of the Melia products has been designed to match the Heka lighting system.**

#### Dimensions

##### Length

162 mm [6 2/4"]

##### Width

145 mm [5 3/4"]

##### Height

1000 mm [3' 3 1/4"]

##### Weight

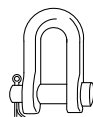

12 kg [26.46 lb]

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

#### Compatible accessories

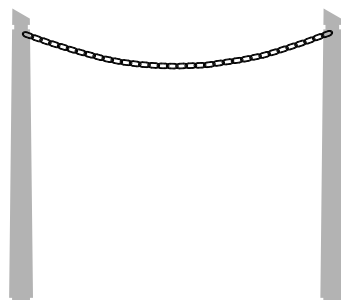

##### Shackle

9545.033

##### Chain

9525.411.002

#### Components

The support is constituted of a steel column (diameter: 102mm [4"]). The upper part of the column has two rings for the chain entry.

The cast iron component at the base is a truncated cone in shape and is decorated at the upper extremity with a torus fixed to the column with three M6 dowels.

The cast iron end component is 135mm [5 1/4"] high and is decorated with two toruses and a sphere.

#### Accessories

The bollards can be completed by chain and shackle, carabiner or stirrup.

#### Materials

- Cast iron UNI EN 1561
- FE 360 steel UNI EN 10219-1

See the specific descriptions on the painting cycles of the materials that make up the product.
