

Product description

Railing with tubes composed of double horizontal bar support columns, made in hot-dip galvanised steel. Base and decorative cast iron element at the top.

Series description

The Melia series is a combination of classical and modern style, of cast iron and steel. Its functional and essential elements generate a collection of products that can easily fit into different architectural contexts. The shape of the Melia products has been designed to match the Heka lighting system.

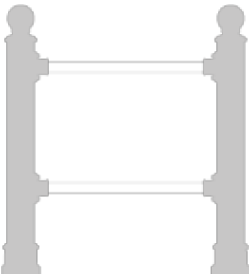

Dimensions

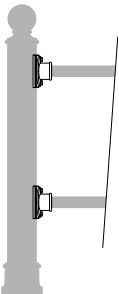

Length
145 mm [5 3/4"]
Width
-
Height
1000 mm [3' 3 1/4"]
Weight
13.5 kg [29.76 lb]

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

Compatible accessories
Tube
9522.842

Collar
9502.905

Components

The support is constituted of a steel column (diameter: 102mm [4"]). The column has four M8 threaded holes for fixing the collars. The collars are suitable for tubes with diameter 42mm [1 5/8"] (not included with the product).

The cast iron component at the base is a truncated cone in shape and is decorated at the upper extremity with a torus fixed to the column with three M6 dowels.

The cast iron end component is 135mm [5 1/4"] high and is decorated with two toruses and a sphere.

Accessories

The railings are always completed with rings or with tubes and collars.

Materials

- Cast iron UNI EN 1561
- S235J steel UNI EN 10219-1

See the specific descriptions on the painting cycles of the materials that make up the product.

Finishes

The standard colours are:

- Neri Grey
- Other colours are available upon request.

Installation

See product installation guides.
