

#### Product description

Modular railing with panels composed of support columns in hot-dip galvanised steel. Base and decorative cast iron element at the top. The panels can be solid, for possible advertising, or hollow and cross-shaped.

#### Series description

The Melia series is a combination of classical and modern style, of cast iron and steel. Its functional and essential elements generate a collection of products that can easily fit into different architectural contexts. The shape of the Melia products has been designed to match the Heka lighting system.

#### Dimensions

##### Length

95 mm [3 3/4"]

##### Width

95 mm [3 3/4"]

##### Height

1000 mm [3' 3 1/4"]

##### Weight

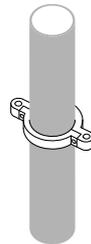

7 kg [15.43 lb]

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

#### Compatible accessories

##### Ring with double joint

0002.003

##### Ring with single joint

0002.003.001

#### Components

The support is constituted of a steel column (diameter: 60mm [2 1/4"]).

The cast iron component at the base is a truncated cone in shape and is decorated at the upper extremity with a torus fixed to the column with three M6 dowels.

The cast iron end component is 85mm [3 1/4"] high and is decorated with two toruses and a sphere.

#### Accessories

The railings are always completed with rings or with tubes and collars.

#### Materials

- S235J steel UNI EN 10219-1

- Cast iron UNI EN 1561

See the specific descriptions on the painting cycles of the materials that make up the product.

#### Finishes

The standard colours are:

- Neri Grey

Other colours are available upon request.

#### Installation

See product installation guides.
