Components

The support is constituted of a steel post with a circular cross-section.

The cast iron component at the base is a truncated cone in shape and is decorated in the central and upper parts by twenty small flutings. The component is fixed to the support with an M6 dowel.

The cast iron end component serves as an entry and lower support for the panel and is decorated with two curly leaves.

The advertising panel is composed of an external frame made with a special steel profile, inside which a skeleton is welded to strengthen the structure, an upper internal frame and a lower one made in angular steel profile 6mm [1/4"] thick (20mm [3/4"] x 20mm [3/4"]) and two threaded pins allowing for fixing to the external frame. The structure is ready to be installed with two panels measuring 505mm [1 8"] x 830mm [2' 8 3/4"] x 20mm [3/4"] (upper panel) and 505mm [1 8"] x 230mm [9"] x 20mm [3/4"] (lower panel). The usable advertising space of the two panels measures 805mm [2' 7 3/4"] x 475mm [1' 6 3/4"] on the upper panel and 205mm [8"] x 475mm [1' 6 3/4"] on the lower panel. Panels not included with the product.
