

Product description
Cylindrical litter bin in cold-galvanised steel sheet with feet, uprights, decorations and lid in primary aluminium alloy. Complete with polyethylene container to be inserted inside the bin.

Series description
The Layia series includes the entire range of street furniture: bench, sign, litter bin, bicycle rack, planter, fountain, ashtray, bollard, railing and notice board. Flutings and floral decorations have been designed to match the posts of the Sheliak lighting system.

Dimensions	
Length	
535 mm [1' 9"]	
Width	
535 mm [1' 9"]	
Height	
1030 mm [3' 4 2/4"]	
Capacity	
50 l [13.21 gal]	
Weight	
18,5 kg [39.68 lb]	

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

Components
The support is constituted of a lower ring in cast aluminium, decorated with a torus, three cast aluminium uprights fixed to the ring, three galvanised curved sheets 1mm [1/64"] thick, attached to the buffering of the central part of the bin, and an upper ring in cast aluminium decorated with a torus and fixed to the three uprights. Two uprights house the systems for opening the upper lid.

Each upright is decorated with seven flutings; on the uprights, at the height of the upper ring, are three cast aluminium decorations in the shape of a double shell.

The component at the base is composed of three feet in cast aluminium 185mm [7 1/4"] high. The feet are arranged at 120° from each other and are fixed to an internal plate in galvanised iron sheet, which serves as a support for the plastic container. Each foot is decorated with flutings, a torus in the centre and a shell on the upper extremity.

A polyethylene container 535mm [1' 9"] high (diameter: 350mm [1' 1 3/4"]) is inserted into the litter bin.

The cast aluminium lid 60mm [2 1/4"] high is decorated in the upper part by scales. The lid is hinged onto an upright and is secured to the other two uprights by closing systems that can only be opened with the triangular interlocking key. The lid is decorated with a cast aluminium pine cone-shaped element attached to the centre of the lid.

Materials
- Cast aluminium UNI EN 1706
- Cast iron UNI EN 1561
- S235J steel UNI EN 10219-1
See the specific descriptions on the painting cycles of the materials that make up the product.

Finishes
The standard colours are:
- Neri Grey
Other colours are available upon request.

Installation
See product installation guides.
