

## Description

The top section is made in UNI EN 1561 cast iron and S235J UNI EN 10219-1 steel, galvanized to UNI ISO 2081 standards and corresponds in shape, size and ornamentation to the diagrams, which are an integral part of the specifications.

The top section is composed as follows:

- 1°) Column in cast iron (lower diam. 9.5 cm, top diam. 8 cm, height 98 cm), tapered and decorated with eight flutes and a torus (B) at the base.
- 2°) Capital in cast iron (lower diam. 8 cm, top diam. 16 cm, height 37.5 cm), tapered and decorated with two tori (C) and four leaves pointing upwards (D). The capital is fitted onto the core (A) and is secured with two M8 stainless steel grubscrews and an M8 stainless steel bolt that penetrates into a slot (E) in the core (A).
- 3°) Galvanized steel tube with a 3/4" GAS thread at each end and a stainless steel locking nut, to be screwed into the core (A).

The total height of the top section is 134 cm.

## Protection of surfaces
