

Product description

Cylindrical litter bin in hot-dip galvanised steel sheet with bag-securing ring. Steel support post with base and upper extremity made of cast iron.

Series description

The Melia series is a combination of classical and modern style, of cast iron and steel. Its functional and essential elements generate a collection of products that can easily fit into different architectural contexts. The shape of the Melia products has been designed to match the Heka lighting system.

Dimensions

Length

310 mm [1' 1/4"]

Width

400 mm [1' 3 3/4"]

Height

1100 mm [3' 7 1/4"]

Capacity

37 l [9.77 gal]

Weight

12,7 kg [26.46 lb]

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

Components

The support is constituted of a steel tube 102mm [4"] high.

The cast iron component at the base is a truncated cone in shape and is decorated at the upper extremity with a torus.

The cast iron end component is placed at the extremity of the support. The component is decorated with two toruses and a sphere.

The bin is made of steel sheet, 15/10mm [2/4"] thick and 535mm [1 9"] high. The bin is fixed to the support tube at two points: at the lower part by a bracket with a hinge, which allows it to rotate, making emptying litter easier, and at the upper part by a lock system with key. The bottom of the bin has holes for draining water. The bin has a stainless steel ring to secure the bag.

Materials

- Cast iron UNI EN 1561
- FE 360 steel UNI EN 10219-1

See the specific descriptions on the painting cycles of the materials that make up the product.

Finishes

The standard colours are:

- Neri Grey
- Other colours are available upon request.

Installation

See product installation guides.
