

#### Product description

Cylindrical litter bin in hot-dip galvanised steel sheet with bag-securing ring. Steel support post with base and upper extremity made of cast iron.

#### Series description

The Melia series is a combination of classical and modern style, of cast iron and steel. Its functional and essential elements generate a collection of products that can easily fit into different architectural contexts. The shape of the Melia products has been designed to match the Heka lighting system.

#### Dimensions

##### Length

310 mm [1' 1/4"]

##### Width

700 mm [2' 3 2/4"]

##### Height

1100 mm [3' 7 1/4"]

##### Capacity

74 l [19.55 gal]

##### Weight

19,8 kg [41.89 lb]

Measurements in millimetres are rounded to the nearest quarter of the closest inch.

#### Components

The support is constituted of a steel tube 102mm [4"] high.

The cast iron component at the base is a truncated cone in shape and is decorated at the upper extremity with a torus.

The cast iron end component is placed at the extremity of the support. The component is decorated with two toruses and a sphere.

The two bins are made of steel sheet, 15/10mm [2/4"] thick and 535mm [1 9"] high. Each bin is fixed to the support tube at two points: at the lower part by a hinged bracket, which allows it to rotate, making emptying litter easier, and at the upper part by a key lock system. The bottom of each bin has holes for draining water. The bins have a stainless steel ring to secure the bag.

#### Materials

- Cast iron UNI EN 1561
- FE 360 steel UNI EN 10219-1

See the specific descriptions on the painting cycles of the materials that make up the product.

#### Finishes

The standard colours are:

- Neri Grey
- Other colours are available upon request.

#### Installation

See product installation guides.
